## Songwriting 201

Are you an experienced songwriter wishing to upgrade your skills? Do your songs 'work' but not 'inspire'? Do you experience writer's block or seem to keep writing the same song over and over? In this 7-week course, you'll learn how to inspire listeners with imaginative and evocative lyrics, create melodies that are fresh and memorable, develop songs that move bodies and hearts and originate songs that are intriguingly intricate or simply profound. This class will help you elevate songs from a passive 'listening' experience into eloquent investments in the exchange of ideas and values with your listeners through the power of songs. You don't have to have the ability to sing 'well', play an instrument, understand music theory, or transcribe music to gain insight and improvement from this class. This class will help songwriters with experience become songwriters with skill.

### Ukulele for Beginners Part 1

The magical ukulele is capturing hearts and minds in Maine and around the world! Why not yours? Come join our adult beginners' series and share in the fun of learning to play. The ukulele is versatile and a blast to play (with a bit of regular practice, of course). On it you can knock out folk music, rock, blues, jazz, pop, country, tunes grandma knows -- even classical music. In Part 1 of the course, Duncan Perry, who has taught more than 500 students of all ages, will introduce you to essential chords and strumming techniques using familiar songs -- truly a fun way to learn ukulele. Oh, and there are lots of laughs along the way. And here's a bonus: you do not need to know how to read music! However, you must have a playable soprano, concert, or tenor ukulele (no baritones please) and an electronic tuner or a tuner app on your cell phone or tablet. Ukes are affordable and compact and you can take them most anywhere. And when folks hear you play this happy instrument, well, they just have to smile! So grab a uke and get ready for a low-stress, fun-filled musical adventure, then spread the joy!

Along the way there will be familiar music and more laughs, as well as learning special skills like discovering melody notes, transposing keys, and ornamenting your playing in ways that will make your ukulele journey increasingly interesting and more exciting. *Duncan is an experienced multi-instrumentalist who has been performing and teaching folks how play the ukulele for the last 13 years. Having served as a volunteer music therapist in medical and hospice settings, he quickly came to understand that music is medicine and that learning to play an instrument not only sharpens the brain but helps reduce stress. It also brings joy to the ukulele player and to her or his audience. Duncan has taught in a variety of Maine communities and has not let the COVID-19 epidemic stop him. He simply moved from teaching in person to an online format last June.*
